

The logo for Observability Day Europe is centered on a dark red background. It features the text "Observability Day" in a large, white, sans-serif font, with "EUROPE" in a smaller, white, sans-serif font directly below it. The text is enclosed within a white, rounded rectangular border. The background of the logo area is filled with a pattern of small, semi-transparent white icons representing various scientific and technological fields, including a molecular structure, a graph, a lightbulb, a flame, a bird, a microscope, a person with a headband, a building, and a network diagram.
